Definitions:

- ADV means average daily volume calculated as the number of shares added to, removed from, or routed by, the Exchange, or any combination or subset thereof, per day. ADV is calculated on a monthly basis.
 - The Exchange excludes from its calculation of ADV shares added, removed, or routed on any day that the Exchange's system experiences a disruption that lasts for more than 60 minutes during Regular Trading Hours ("Exchange System Disruption"), on any day with a scheduled early market close, and on the last Friday in June (the "Russell Reconstitution Day").
 - With prior notice to the Exchange, a Member may aggregate ADV with other Members that control, are controlled by, or are under common control with such Member (as evidenced on such Member's Form BD).
- TCV means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply.
 - The Exchange excludes from its calculation of TCV volume on any day that the Exchange experiences an Exchange System Disruption, on any day with a scheduled early market close, and the Russell Reconstitution Day.

General Notes:

- Unless otherwise indicated, rebates and charges for adding, removing or routing liquidity are listed as per share rebates and charges.
- The Exchange notes that to the extent a Member does not qualify for any of the tiers listed below, the rates listed in the above section titled "Fee Codes and Associated Fees" will apply.
- To the extent a Member qualifies for higher rebates and/or lower fees than those provided by a tier for which such Member qualifies, the higher rebates and/or lower fees shall apply.
- Variable rates provided by tiers apply only to executions in securities priced at or above \$1.00.
